Part 1 - Introduction

The Companies Registration Office (CRO) works under the aegis of the Department of Enterprise, Trade and Employment. It is the central repository of public statutory company law related information on Irish companies. The main functions of the Office are:

- Incorporation of companies
- Registration of company post-incorporation documentation
- Enforcement of the Companies Act 2014 in relation to filing obligations of companies
- Registration of business names/changes in business name particulars
- Making information available to the public

The CRO Mission Statement is:

to oversee the highest possible rate and quality of annual return filing on the part of companies in accordance with the relevant statutory provisions and to ensure that information on companies published in turn by the CRO is timely and accurately reflects the information provided by those companies.

PART 2 - Overview of 2023

2023 was another busy year for the CRO and its stakeholders. The CRO Public Office in Dublin which was closed on 12th March 2020 due to COVID 19 restrictions has not reopened. The question of whether the office will re-open will be kept under review, particularly in the light of the very high level of electronic filing in CRO since the introduction of the new IT system in December 2020 and the continuing expansion of mandatory electronic filing. During 2023, 96% of submissions filed with CRO were filed electronically.

Enforcement activities which had been suspended in early 2020 in light of the COVID-19 difficulties being experienced by customers and presenters resumed in July 2023 with the issue of the first batch of warning letters to companies who were late in filing their annual returns. Further batches continued to issue on a weekly basis and strike off notices began to issue in October.

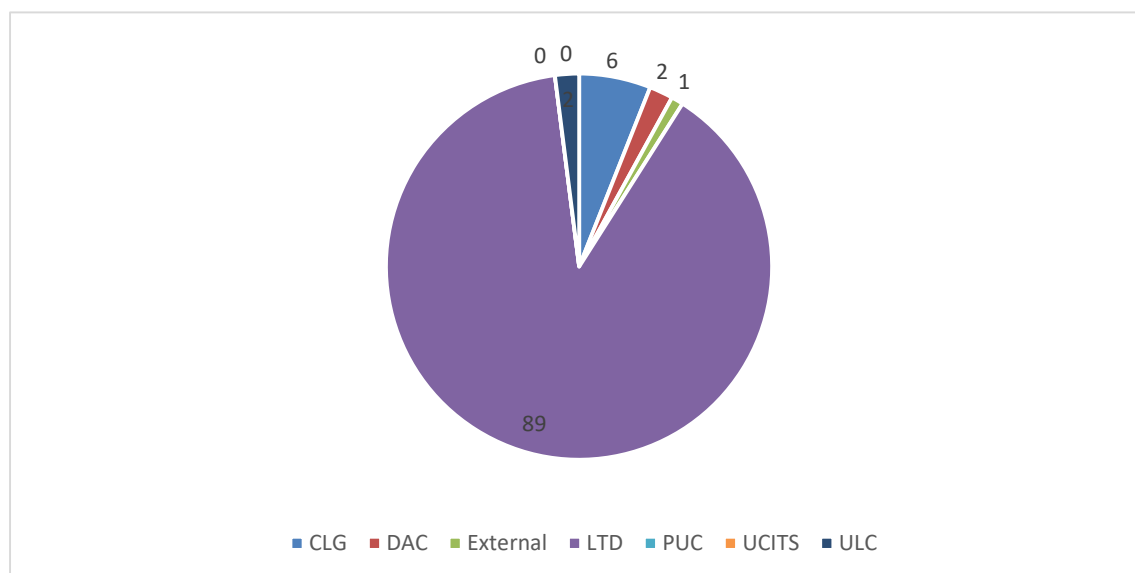

A major development during the year was the introduction of the requirement for directors to provide a Personal Public Service Number (PPSN) when filing certain documents with the CRO. This requirement came into effect on 11th of June 2023.

306,559 Irish companies were in existence on the register at the end of the year, resulting in 519,048 submissions being filed with the CRO during 2023. Private limited by shares companies make up 88% of all companies on the register.

The number of new companies incorporated continues to significantly exceed the number of companies leaving the register. This has been the case for some years, although the increase was exacerbated by the continuing suspension of involuntary strike offs for failure to file annual returns.

The overall number of submissions being filed with CRO continued to rise, with over 550,000 submissions filed in 2023 compared to 510,000 filed in 2022. Over 96% of all documents filed with CRO in 2023 were filed electronically compared to 94% in 2022.

Makeup of the Register at end 2023¹

Public Limited Companies, Public Unlimited Companies and UCITs each comprised less than 1% of the Register at end 2023.

¹ LTD: Limited Company, DAC: Designated Activity Company, CLG: Company Limited by Guarantee, ULC: Unlimited Company.

The above table includes Irish registered companies only. Information in relation to external companies on the register is on page 10 of this report.

Mandatory Electronic Filing – Table of Filings

Over 40 CRO forms are now available for electronic filing only. The table below shows the number of most commonly filed mandatory electronic forms during the year.

Form Type ²	2020	2021	2022	2023
B1 form	194,515 ³	257,150	240,223	255,818

B73 form	8,810	14,197	15,041	14,016

Trends in Electronic Filing

The introduction of the new CRO IT system in December 2020 made a number of new forms available for filing online, mainly in the solvency area. A number of forms became subject to mandatory electronic filing in 2023 which has driven a further increase in online filing to 96% in 2023.

Year	E-filed Documents	All submissions Received	Irish Companies on Register
2013	247,002	385,429	182,562
2018	401,386	505,469	223,013
2023	528,542	550,731	306,559

² B1 Form: Annual Return, B2 Form: Change of Registered Office, B10: Change of Director/Secretary or in their particulars, B73: Nomination of a new annual return date.

³ The number of annual returns filed in 2020 was lower than in previous years due to the filing extensions provided as a result of the COVID-19 pandemic. The number of annual returns peaked in 2021 with the end of the filing extensions.

Applications to the High Court/District Court for an Order Extending Time to File

Section 343(5) of the Companies Act 2014 states that a company which is late in filing its annual return can make an application to the Court (High Court or the District Court for the district in which the company's registered office is situated) for an order extending the time to file its annual return for that year. It should be noted that only one application can be made to the court in respect of any one financial year and only "live" companies may make an application to the courts under this section – it is not a process available to dissolved companies.

Once an order is granted by the Court and complied with by the company, the annual return will be treated as being on-time and the company will not be required to pay late filing fees or suffer loss of audit exemption. In 2023, CRO received 1,299 notices of applications from companies to the District Court or the High Court.

The CRO issued a total of 1,280 Letters of Acknowledgement/No Objection. The CRO lodged objections in relation to five applications. The CRO processed 1,227 Orders granted by the District Court/High Court. Three applications were refused by the Courts. No applications were withdrawn. 115 applications were adjourned from 2023 to 2024.

Unregistered Auditors

In 2023, there were no reports of unregistered auditors attempting to file false auditors' reports. There were 19 instances where auditors notified the CRO that their Auditors Registration Number (ARN) was used to file auditors' reports without permission. There was no instance of an auditor stating their details were used in error. Where such instances are notified to the CRO the details may be passed to the Corporate Enforcement Authority (CEA) for investigation.

The CRO continues to monitor the controls which reduce the risk of such incidences reoccurring. The mechanism in place, allowing auditors to immediately alert the CRO of an abuse of their registration number, continues to operate effectively. Since the introduction of the Auditors Registration Number in 2012 the number of reports of unregistered auditors attempting to file auditors' reports has dropped from 123 in 2012 to zero in 2023 while the number of reports of Auditors Registration Numbers being used without permission has dropped from 33 to 19.

Provision of information to the public

Over 379,000 documents were purchased from the CRO website in 2023 and the website was visited 1.161m times. All statutory information provided by companies to the CRO is available to the public for inspection on payment of a small fee where applicable. Certain vital information, such as company name and registered office address, may be checked free of charge on the CORE portal <https://core.cro.ie>.

Information Unit

There continued to be a high volume of phone calls to the CRO Information Unit throughout 2023. The phone number for the Information Unit is 00 353 1 8045200/Lo call 0818 452 000. Over 44,000 phone calls were answered as well as 17,872 emails. (Email address cro.info@enterprise.gov.ie).

Part 3 - The Company Lifecycle

Incorporation of a company

A company is a legal form of business organisation. It is a separate legal entity and, therefore, is distinct from those who run it. There are two basic company types, a private company and a public company. The majority of companies registered in Ireland are private companies and, of those, most are small with only one or two members.

The Companies Act 2014 generally allows one or more persons to form a private company for any lawful purpose by subscribing to a constitution. A private company may have a maximum of 149 members and there is no limit on the number of members of a public company.

All company types, with the exception of the Private Company Limited by Shares (LTD), must have one secretary and a minimum of two directors. Single director LTDs must have a separate secretary. Formal qualifications are not required to be a company director. All company directors must be over 18 years of age. All company officers have wide responsibilities in law and should take appropriate steps to ensure that they are fully aware of their obligations. Further information on the duties of directors and secretaries is available at [Duties of Directors and Secretaries - CRO](#).

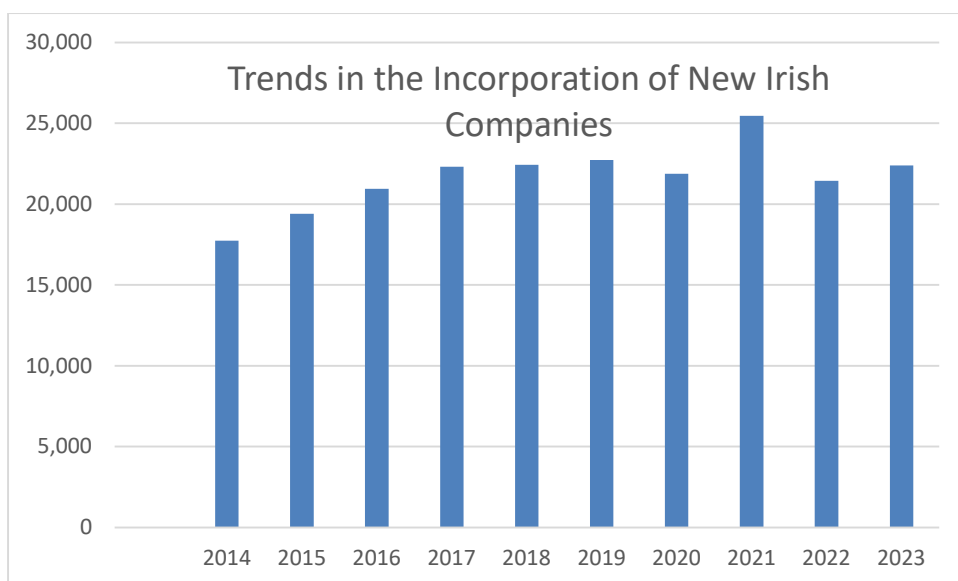

In 2023, the number of new companies incorporated was 22,384. This represents an increase compared to 2022 when 21,434 new companies were incorporated. During 2023 there was an average of 1,865 new companies registered per month, compared to a monthly average of 1,786 in 2022. The general trend since 2016 has been for over 20,000 incorporations every year with a high of 25,468 in 2021.

There are two incorporation schemes. CRO has committed to the following customer service targets for registration of new companies under the relevant schemes:-

- Fé Phráinn Scheme - 5 working days
- Ordinary A1 Online Scheme - 10 working days

CRO continued to broadly meet its customer service targets for the incorporation of new companies in 2023.

The number of external companies on the Register at the end of 2023 was 3,337, an increase on the figure of 3,143 at the end of 2022. There were 470 EEA external company branches and 2,867 non-EEA branches on the register at the end of 2023.

Registration of company post-incorporation documentation

Changes in the situation of a company's registered office or changes amongst a company's officers or in their particulars must be notified to the CRO on the relevant statutory form. The form must be properly completed and signed by a current officer of the company per the CRO records in accordance with the Companies Act 2014.

As the size of the register has grown, so have the number of filings. There were 82,902 B10 forms (change in director/secretary information) registered in 2023. There were also 20,966 B2 forms (change of registered office) registered during 2023.

Annual Returns

Every company on the register, whether trading or not, is required to submit an Annual Return every year.

An annual return includes details of the company's directors and secretary, its registered office, and details of its shareholders and share capital. It must be signed by a director and by the company secretary. If the secretary is also a director, he/she may not sign in both capacities. Company financial statements are required to be annexed to a company's annual return in most cases. There were 255,818 annual returns received in the CRO in 2023.

Any company which is late in filing its annual return, will be subject to late filing fees, and is likely to face either strike-off proceedings or prosecution in the District Court.

Re-Registrations

Under the Companies Act 2014, it is possible to change from any company type to another company type e.g. from limited to unlimited, from private to public or from limited by shares to limited by guarantee or vice versa, subject to the requirements of Part 20 of the Act.

In 2023, a total of 393 companies re-registered, an increase on the figure of 361 in 2022.

Liquidators are required to submit form E3 (Account of act and dealings) and form E4 (s681 account and affidavit). Receivers are required to submit form E9 (receivers abstract). The numbers of return submissions by liquidators and receivers rose considerably in 2018 and 2019 as a result of a reminder programme that began in 2018. The reminder programme was suspended in March 2020 due to the pandemic and had not resumed by year end. CRO plans to initiate enforcement action against liquidators who are late in filing their returns towards the end of 2024.

2021	1
2022	2
2023	2

Enforcement, prosecution and striking companies off the register of companies

A company can be dissolved either through liquidation or strike-off. Strike-off is not always involuntary. A company that ceases to trade and has no outstanding creditors can request the Registrar to strike the company off the register.

Involuntary Strike-Off

Enforcement activities which had been suspended in early 2020 in light of the COVID-19 difficulties being experienced by customers and presenters resumed in July 2023 with the issue of the first batch of warning letters to companies who were late in filing their annual returns. Further batches of warning letters continued to issue on a weekly basis and strike off notices began to issue in October. In late November and early December 2023, issues arose in relation to the publication in the CRO Gazette of a number of companies that were to be involuntarily struck off the register in early 2024 for non-filing of annual returns. It should be noted that no companies had reached the end of the enforcement process and been struck off by the end of 2023.⁴

Voluntary Strike-Off

Voluntary strike-off is a statutory process under the Companies Act 2014. A total of 6,227 companies were struck off voluntarily in 2023, which is a decrease on the figure of 6,376 in 2022.

Restoration to the Register

A company can be restored to the register following strike-off. Where a company has been struck off the register for a period not exceeding 12 months, an application can be made by the company to the Registrar for restoration. Once the 12 months has elapsed, it is only possible to restore the company via Court Order Restoration. During 2023 a total of 62 companies were restored to the register, a decrease on the 96 restored in 2022.

Prosecutions for failing to file annual returns

Due to the suspension of enforcement action no such prosecutions were initiated during 2023.

⁴ The issues that arose in relation to the CRO Gazette in late November and early December 2023, did not come to light until January and February 2024. Two Special Gazettes were published on 20th February 2024 in relation to the impact of these issues. These issues will be reported on fully in the 2024 Annual Report.

Part 4 - Other Entities Registered by the CRO

Business Names

The Registration of Business Names Act 1963 provides transparency in relation to persons trading under a name other than their own. It is obligatory to register a business name if any individual or partnership (whether composed of individuals or bodies corporate or any combination of both) or body corporate carries on business under a name other than their own true names. Its purpose is to make public the identities of those individual(s), partnerships or corporate bodies being the legal entity behind the business name. Registration of a business name does not result in the creation of an entity with separate legal personality.

The number of new business names registered by the CRO in 2023 was 19,752, a decrease of 1.26% on 2022 when 20,006 were registered. Almost 98% of new business name applications were filed electronically in 2023.

Year	Business Names on the Register	New Business Names

2003	212,511	17,826
2013	453,815	25,795
2023	661,230	19,752

A change in any of the particulars of a registered business name (e.g. change of business name or business address) should be notified to the Registrar within one month of the date of the change. In 2023, 1,959 changes were registered. 2,366 forms notifying the Registrar of cessation of business were submitted.

Limited Partnerships

The Limited Partnership Act 1907 facilitates the creation of a partnership in which some members have limited liability for the debts of the firm. Their liability is limited to the extent of the amount of capital contributed by them to the partnership. As with a general partnership, a limited partnership is not a separate legal entity. 147 Limited Partnerships were registered in 2023, a decrease on the number registered in 2022 (182).

The number of cheques received in the CRO has steadily reduced from 18,495 in 2018 (value €2.3m) down to 2,214 (value €63k) in 2023. The CRO continues to review alternative payment methods for customers who have traditionally paid by cheque.
